DOMUS ARENDIA ELITA

ДОМ АРЕНДИА ЭЛИТА

In the first century a.D. of the III millennium Domus Arendia Elita (DAE) confirms our faith and faithfulness of the established and re-established organisations according to the heavenly leadership.

In 1201.a.D. established and in 1995.a.D. re-established Conventus Terra Mariana (CTM) according to the prayers of Ordo Altaria Mariana (OAM) and Successors of Terra Mariana Innocentivs III Pontifix Maximuse beatification process initiative group Brotherhood of Successors of Terra Mariana in Perugia, Italy.

As independent, over politics, between religions organisation, Domus Arendia Elita has established Concordia I (look www.ConcordiaPanEurAsia.eu). Arendia Elita von Wolsky FF is leading DAE from the end of the XX century.

Arendia Elita von Wolsky FF has the honour to lead DAE also in this millennium.

Latin Volscis, Italics family, who lived in the South of Latinum in Italy, capital Velletri (Velitrae) in the South of Rome. Today grown as the suberb of Rome for 38,6 km by Via Appia, on the territory of ancient Alba Longa.

Alba Longa – the oldest religious and political centre of Latinum. According to the tradition the son of Aenes Acanius (Julus) founded the town. The town was destroyed in the times of king Tullus Hostilius.

In 338 BC they joined with Romans and jointly new places were settled in the Central and Northern Europe.

It has been proved that Volsci is Caius Julius Caesar Augustus Octavianus (63 BC – 14 AD) from Velletria. Volsci is Marcus Tullius Cicero (103 BC – 43 BC) from town Arpinum. Volsci is also Pope Innocentivs III, born Count Segni in town Anagni 1160 -?- 1161 a.D.

First of all Volscis were known as the representatives of the military aristocracy trough all three Roman Empires.

One young representative of populus Volsci, Carius Florianus, who as the Roman nobleman carried the Coat of Arms of Elita, got the job offer from the Polish king Loktiek 1331.a.D.

For the braveness shown in the battle the king presented to the young knight big possessions near Memel.

During several delivering of the Great Poland those lands went under the protection of the Russian Tsars. Von Volscis gave 8 generals to the Romanovs, thanks to what the Tsar honoured several little von Volscis being their official godfathers. Von Volscis military aristocracy has established also several medical institutions and higher military schools. In the civil jobs Volscis have also been also in the diplomatic service, for example the first Imperial Ambassador in Peking.

From the times of the I Roman Empire Volscis are located in several places on our Planet and respect their historical unity – Gloria Concordia!

Epilogue

We thank father of Printsipalia Marika Katarina, Aleksei Ritso, straight successor of Wolskys and Sengbusches, who being the member of the over-Russian Noblemen Association from 1991, after opening the Imperial archives, found the family archive materials in Moscow, St.Petebourg and Odessa, where had been his grandparents summerhouse in Arcadia (the summer house of Marika's father was in Arcadia). Being the professor of Tallinn University of Technology the materials he gathered are well chosen ilustamata ehtsuses without decorating, selected by authenticity and importance.

We thank aunt of Printsipalis, Salme Raunam (b. Tamberg), who was professor of the Art University and differently from the professor of Tallinn University of Technology, she did not economize the colours painting hero epics. For sure her heroes were created with love and respect towards her grandparents, this way they should be handled with reservation.

The real historians, genealogists and heraldics are not free of guilty also. Often peoples' stories in popular science form are presented as the historical truth. We bring as example the getting story of three spears on the Coat of Arms of Elita. Several historians have cultivated nice myth how the Polish king looking over the war field found a young knight laying on the ground three spears in his chest. And the king said: „If You over live, You will get a high position and big land possessions". The young fellow seemed to like this kind of motivation, deciding to over live and take the permission. No doubt, that historians know that the Elita Coat of Arms comes from a lot earlier times than the XIV century, but the historians can sometimes leave in life nice legends – honour to them.

Aleksei Ritso was a serious technical professor, who witnessed truth and only truth. It was pleasant to be under his leadership at the Riga City Archive and Dome Archive a week or more, where we found that one of our relatives living in Germany had already transported the most part of the archives to Germany – fortunately he was a decent man. He had gathered the material from many archives of Europe and we were lucky to have the chance to get acquainted with it with knowledgeable comments. We have been dealing with renovating DAE more because of the obligation of the work done by grandparents, being more concerned about the future perspective of our family in the future.

We have been dealing with the renovation of DAE more because of the duty towards the honourable work our forefathers' have done, at the same time being more concerned about the family future perspective.

This way we apologise about the unskilled restoration of the restoring of the family House in the best way. We thank all historians, genealogists, archivists and heraldrys, thanks to whom the DAE was restored overall. Especial thanks to thank the heraldry, Hon. Chev. Hanno Saks.

Thanks to all good people for the help given.

Thanks to everybody, who evaluate our work with generosity.

Thankfully to everybody who concerned

Sumerian double-headed eagle symbolizes the Concordia of the East and West. You can see the western Habsburgs and the eastern Romanovs imperial Coats of Arms. Founder and leader of the Pan-European movement, Otto von Habsburg, is also the founder of PanEurAsian movement in our House. Historical Sumerian eagle has survived on the modern Russian state's Coat of Arms. We are grateful to the Moscow State University, who has become the center of today's EurAsian movement. Domus Arendia claims to be the PanEurAsian peace movement in the center of the Baltic States.

P.S.

Kind Reader

After been acquainted with the material based on our family genealogical tradition and illustrative picture album we ask kindly for your considered evaluation.

Weather and which could be the more extensive family genealegend version?

Weather to publish it also in written?

Weather more scientific or creative literature history treatment?

For undertaking bigger work the professional editorial board, historians etc. should be brought along.

To cover the costs risk with the subscribers should not be taken.

Your opinion and probable recommendations are very valuable at the place.
